NEW EARTH PARENTING PHILOSOPHY

New Earth Parenting exists to teach strategies that work and reveal principles of living from the heart. Applying these principles to human relations and parenting liberates and inspires. Children discover their truth. Hearts are empowered. Limiting beliefs are challenged and dissolved with grace, kindness and depth of compassion. Children and their families learn to live from their true essence and highest potential.

At **New Earth Parenting**, I offer traditional and innovative strategies, and together, we set up the order and structure in which balance can be restored. I am deeply committed to the well-being and vitality of your children and their activities. My background and experience, combined with a deep sensitivity, allows us to get to the root cause and shift the problem expeditiously. I have been working effectively for over twenty-five years with the precious essence of individuals, children, and family members to transcend conflict and reinstate harmony.

While my heart extends to many places, I currently reside on the island of Kauai, Hawaii. Because of the many communication options available today, (skype, phone, etc...) I make my services available without geographical limitations.
